This action is in response to the request for continued examination (RCE) and preliminary amendment filed on August 12, 2003 and refiled on September 10, 2003.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-5, 7, 9 and 24-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are inconsistent in that claim 29 recites that the biodegradable polymer or biodegradable polymer composition "consists essentially of..." while dependent claim 9 recites that the biodegradable polymer or biodegradable polymer composition "comprises...". It is not clear what is intended in claim 7, with respect to the reference to the aliphatic-aromatic copolyester. Claim 30 is inconsistent in that, in line 3, the biodegradable polymer or biodegradable polymer second-material composition "comprises..." while, in lines 9-10, the polymer or composition "consists essentially of...". Further, it is not clear what is meant by the "biodegradable polymer-second material composition". Finally, dependent claim 28 is inconsistent with claim 30 in that "comprising" is used with respect to the biodegradable polymer composition. It is suggested that applicant clarify what is intended by using the language "comprising" with respect to the biodegradable polymer composition and the language "consisting essentially of" with respect to the biodegradable polymer.

In view of applicant's arguments and the Irick Declaration, the language "consisting essentially of" is considered to exclude the sulfonated monomer of Blumenthal that would materially affect the novel and basic characteristics of the claimed invention. Therefore, the 35 U.S.C. 102/103 rejection over Blumenthal is overcome.
